The Farmer's Wife

Is very careful about her churn. She scalds it thoroughly after using, and gives it a sun bath to sweeten it. She knows that if her churn is sour it will taint the butter that is made in it. The stomach is a churn. In the stomach and digestive and nutritive tracts are performed processes which are almost exactly like the churning of butter. Is it not apparent then that if this stomach-churn is foul it makes foul all which is put into it?

The evil of a foul stomach is not alone the bad taste in the mouth and the foul breath caused by it, but the corruption of the pure current of blood and the dissemination of disease throughout the body. Dr. Pierce's Golden Medical Discovery makes the sour and foul stomach sweet. It does for the stomach what the washing and sun bath do for the churn—absolutely removes every tainting or corrupting element. In this way it cures blotches, pimples, eruptions, scrofulous swellings, sores, or open eating ulcers and all humors or diseases arising from bad blood.

If you have bitter, nasty, foul taste in your mouth, coated tongue, foul breath, are weak and easily tired, feel depressed and despondent, have frequent headaches, dizzy attacks, gnawing or distress in stomach, constipated or irregular bowels, sour or bitter risings after eating and poor appetite, these symptoms, or any considerable number of them, indicate that you are suffering from biliousness, torpid or lazy liver with the usual accompanying indigestion, or dyspepsia and their attendant derangements.

The best agents known to medical science for the cure of the above symptoms and conditions, as attested by the writings of leading teachers and practitioners of all the several schools of medical practice, have been skillfully and harmoniously combined in Dr. Pierce's Golden Medical Discovery. That this is absolutely true will be readily proven to your satisfaction if you will but mail a postal card request to Dr. R. V. Pierce, Buffalo, N. Y., for a *free* copy of his booklet of extracts from the standard medical authorities, giving the names of all the ingredients entering into his world-famed medicines and showing what the most eminent medical men of the age say of them.

IT IS FOR LADIES, TOO.

They Can Stop Their Hair Falling Out With Herpicide.

Ladies who have thin hair and whose hair is falling out, can prevent the hair falling out, and thicken the growth, with Newbro's "Herpicide." Besides, Herpicide is one of the most agreeable hair dressings there is. Herpicide kills the dandruff germ that eats the hair off at the root. After the germ is destroyed, the root will shoot up, and the hair grow long as ever. Even a sample will convince any lady that Newbro's Herpicide is an indispensable toilet requisite. It contains no oil or grease, it will not stain or dye. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Two sizes—50 cents and $1.00.

Rheumatism

I have found a tried and tested cure for Rheumatism! Not a remedy that will straighten the distorted limbs of chronic cripples, nor turn bony growths back to flesh again. That is impossible. But I can now surely kill the pains and pangs of this deplorable disease.

In Germany—with a Chemist in the City of Darmstadt—I found the last ingredient with which Dr. Shoop's Rheumatic Remedy was made a perfected, dependable prescription. Without that last ingredient, I successfully treated many, many cases of Rheumatism; but now, at last, it uniformly cures all curable cases of this heretofore much dreaded disease. Those sand-like granular wastes, found in Rheumatic Blood, seem to dissolve and pass away under the action of this remedy as freely as does sugar when added to pure water. And then, when dissolved, these poisonous wastes freely pass from the system, and the cause of Rheumatism is gone forever. There is now no real need—no actual excuse to suffer longer without help. We sell, and in confidence recommend

RIOTING IN SAN FRANCISCO.

The United Railroads yesterday afternoon attempted to run five cars on the Turk street line, in San Francisco, but in the burned district these cars were savagely attacked by union mechanics working on buildings and by gangs of men and boys. Strike breakers manning these cars began to shoot and fourteen of the men and boys were wounded, five of whom will die.

The five cars were started from Turk and Fillmore streets with six strike breakers and inspectors uniformed and armed with long 38 caliber revolvers, strapped around their waists. There was a big crowd around the car barns, but there was no concentrated attack on the cars until they reached the burned district. Below Larkin street, where a number of new buildings are under construction, cars were battered with bricks and stone, bits of iron, and scantlings.

The men who made this attack were said to be union bricklayers and carpenters. They were aided by a large gang of sympathisers composes of men and boys.

At Leavenworth street this attack was so vicious that the strike breakers, several of whom had received ugly wounds, opened fire on the worst of their assailants. They shot to kill, and several men fell. The crowd scattered and several policemen cleared the track in front.

The care then moved along Turk street to the corner of Market street. There the worst riot occurred. There are several three and four-story buildings under construction on that corner, while the street is lined with billboards. From windows and upper stories of these buildings a perfect rain of missiles set in. Two men threw down large six by six timber, which broke the roof of one car, and men behind billboards began shooting.

The strike-breakers showed great nerve and coolness. They fired only upon those whom they actually saw shooting or throwing bricks and stones, but in nearly every case they dropped their man.

One boy of sixteen came from behind the billboard with a brick in each hand. As he threw his second brick the motorman drew a revolver and dropped him, with a bullet through the head. One man threw a half barrel of cement from a second-story window. All the windows in the cars were smashed, and blood flowed from the wounds of many of the men who were hit by stones. Two cars were derailed, and the strike-breakers calmly hooked them together with three good cars and took them back to the car barns.

Fully 3,000 people crowded about the cars and reviled the strike-breakers. Many of these were young boys of sixteen or eighteen years, and these were the most reckless of the gang.

The police did little to protect the men on the cars until shooting began. Then they drove the crowds from the street, but they arrested none of those who threw missiles.

Gov. Gillette, who is in Los Angeles, says if rioting continues he will call out the militia.

"If riots go on," he said, "and they continue to kill men in San Francisco, and the police are unable to stop it, I will call out the militia. There will be no child's play about it, either, if I take that action. I will see that riots are stopped, and stopped at once. Everything is in readiness for the calling out of troops. These arrangements were made several days ago at my direction. They will be on the ground shortly after I take my action."

Call at our store, please, for a free sample of Dr. Shoop's "Health Coffee." If real coffee disturbs your Stomach, your Heart or Kidneys, then try this Clever Coffee imitation. While Dr. Shoop has very closely matched Old Java and Mocha Coffee in flavor and taste, yet he has not even a single grain of real Coffee in it. Dr. Shoop's Health Coffee Imitation is made from pure toasted grains or cereals, with Malt, Nuts, etc. You will surely like Health Coffee. Sold by E. S. Leadbeater & Sons.

Alleged Matrimonial Swindle.

In the arrest of Mrs. Violet Lancaster and daughter, Garnet, in Evansville, Ind., the police believe they have caught a pair of international swindlers who defrauded men in both the United States and Canada through the agency of matrimonial bureaus and publications. Chief Brennecke has in his possession letters from men in all parts of the country who have written to him for information concerning the two women, claiming that they had sent them money.

One letter states that the writer had advertised for a wife and that one of the women promised to marry him. A letter later conceded the information that she was sick and needed money, wanted to buy clothes before her marriage or wanted money to pay her railroad fare to the home of the intended husband. In many cases, it is said, the money was sent, and when the woman thought the writer was unusually susceptible she would ask for enough money to pay the mother's as well as the daughter's fare.

Last night a registered letter came to the young married woman and was opened by the police. It contained $5. Another letter was found in the woman's grip from A. Mischnick, of Courtland, Neb. He sent her $5.50, and at another time $50.

A Hard Debt to Pay.

"I owe a debt of gratitude that can never be paid off," writes G. S. Clark, of Westfield, Iowa, "for my rescue from death, by Dr. King's New Discovery. Both lungs were so seriously affected that death seemed imminent, when I commenced taking New Discovery. The ominous dry, hacking cough quit before the first bottle was used, and two more bottles made a complete cure." Nothing has ever equaled New Discovery for coughs, colds and all throat and lung complaints. Guaranteed by E. S. Leadbeater & Sons, druggists. 50c and $1.00. Trial bottle free.

NEW MACKEREL just received by J. C. MILBURN.

ALEXANDRIA GAZETTE AND VIRGINIA ADVERTISER.

WEDNESDAY EVENING, MAY 8, 1907.

AT the opening of the diocesan convention of the Protestant Episcopal Church in Philadelphia yesterday Rev. Edgar Cope, who preached the annual sermon, said: "The day has gone by when churches can be filled by appeals made entirely to the spiritual side of the people. We must better the material condition of men and women first and the spiritual treatment will follow as a matter of course." In commenting upon this sermon the Philadelphia Record says:

We need not stop to ask whether churches were ever filled simply by appeals to the spiritual side of the people, apart from authority—and custom, which has almost equal power. Dr. Cope can speak with the authority of an expert, for he has built up a church from practically nothing to a couple of thousand communicants, and very largely in a population of working people. But in justice to the churches it ought to be noted in countries permeated with Christian sentiment much of the work of material relief and betterment which, centuries ago, had to be done by churches and ecclesiastical foundations is now done by the civil government.

INTEREST in the session in Washington yesterday of the National Association for the Study and Prevention of Tuberculosis centered in the sociological section, in which were discussed questions affecting tuberculosis in schools and factories. The sentiment, as expressed by the delegates, educators and representatives of the workingmen, was unanimous that crowded rooms, bad air and poor light were the prime causes of the spread of the disease, and that radical steps should be taken to overcome this condition of affairs. While it was admitted that occasional "open" causes exist, the lack of proper hygenic conditions in the schoolroom and workshop was credited with being responsible for the development of the disease. It was contended that only in the most modern buildings could the air and light be said to be approximately satisfactory. Consumption is spreading with such alarming strides that heroic measures will soon have to be taken to control this dread disease which physicians hold can, with proper treatment, be both cured and prevented.

THE democrats of Baltimore have come to their own again, and in the election, held yesterday, chose their candidates for mayor and other city offices, together with a majority of members of both branches of the city council, by big majorities. Baltimore being a southern city is, and by right ought to be, a democratic city. The democratic party has for years been, and is now, vastly in the majority in Baltimore, and only when they quarrel among themselves do they lose. It is hoped that all factional differences will be settled now, and that republican rule in Baltimore will be a thing of the past. The democratic State leaders consider Mahool's victory yesterday an encouraging sign for the State election in November, when, in addition to governor and State controller, a legislature will be chosen that will elect a successor to the late Senator Gorman.

THE cleanliness of cows, dairies, the washing of utensils, the ventilation of barns and pens, the feeding of the animals, and the improvement of the sanitary conditions of dairies in general were the principal subjects before the Washington Homeopathic Medical Society last night at a meeting at the Shoreham Hotel. It would seem to be a simple task to keep things about a dairy clean —especially when so much depends upon cleanliness.

IT IS announced that civil and criminal suits will be brought against the persons responsible for the gross overcharges in the construction of the new Pennsylvania Capitol. The scandalous abuses which have been uncovered certainly call not only for reparation, but for exemplary punishment.

From Washington.

[Correspondence of the Alexandria Gazette.]

Washington, May 8.

The President today approved the recommendation of Attorney General Bonaparte made at 11 o'clock this morning that William January, alias William Anderson, the American Valjean of Kansas City, be pardoned from the Leavenworth penitentiary to take effect on July 19. The attorney general, in his recommendation says: "I think the petitioner ought to serve some appreciable time in prison, to show clearly that, as a matter of strict right, he still belongs there, but I also think this period may be appropriately made a short one." For eight days William January, the Missouri "Jean Valjean," has been living within the grim walls of Fort Leavenworth prison, momentarily expecting the pardon promised him by President Roosevelt. A week ago Tuesday the President referred the case to the Department of Justice for recommendation. The papers were all complete, and ready for the perusal of the Attorney General last Friday.

The Attorney General, in noting the receipt of recommendations for pardon says: "I conrider it very important, as a matter of public policy, to discourage attempts to escape among prisoners."

Up to today, Attorney General Bonaparte had not been in Washington but twice since the January case was completed by his assistants, and then only to attend Cabinet meeting and dispose of a few of the more pressing matters which have been piling up at the Department of Justice. It is understood that the President, impatient at the delay, requested the attorney general yesterday at the Cabinet meeting to take up the January case immediately. This is only one of numerous instances wherein the attorney general's private business at Baltimore has seemed to have interferred with his public duties at Washington. It is stated that in the past four months, Mr. Bonaparte has scarcely put in twenty working days at his desk in Washington. He has done nothing in the way of trust prosecutions since the adjournment of Congress, although his assistants have prepared several cases for his consideration.

The fact is that the big business of the department is practically at a standstill. The President was disposed to excuse the Attorney General on the belief that he was unable physically to meet the full exactions of his office. Now that Mr. Bonaparte has personally stated that his indisposition was slight and merely temporary, and that he is in good shape again, the future course of the Attorney General will be watched with interest here in Washington. In denying that he intends retiring from the Cabinet he said: "I like the work of my office, and I hope to remain in it as long as the President wants me to keep it."

In connection with Mr. Bonaparte's failure to attend to trust prosecutions, attention is called today in certain quarters to the temporary holding up of his nomination by the Senate last December The charge had been made that Bonaparte, in a public speech several years ago, declared that combinations of capital were not such very bad things, after all. It was only after assurance came from the White House that his opinions, as expressed at that time, would not interfere with his enforcement of the antitrust laws, that the opposition to his confirmation subsided. Among the cases against trusts now awaiting the Attorney General's personal attention are those involving the Standard Oil, the watch trust and tobacco trust, and the fertilizer trust.

Attorney General Bonaparte enjoys the distinction of being the only member of the Cabinet who does not reside in Washington. He lives in Baltimore, conducts his law offices there, manages his political battles there, and whenever he entertains during the winter, Cabinet members and other guests have to go by train to his home.

The Attorney General today, departing from his usual custom, was at the department on a non-Cabinet meeting day. He was at his desk as early as nine o'clock ready to take up the January case, in accordance with the President's request.

Attorney General Bonaparte, in a written statement today, assumes entire responsibility for the alleged laxity in the Department of Justice. Commenting on certain publications which intimated that his subordinates were "loafing on their jobs," the Attorney General says:

"In so far as the publications in question reflect on me personaly, I do not care to say anything at all about them; but they reflect, by implication, upon my subordinates, as well, since they allege in substance that the work of the entire department is languid and ineffective; and it is my duty, as its head, to pronounce this statement a bald falsehood, or else in gross and wilful ignorance of the facts. The work of the department increases every day, I do not believe it has ever received more zealous and faithful attention than it receives now from the officers and employes of the department, with the exception, of course, of the Attorney General. I do not indeed consider it any part of the department's duty to furnish a liberal daily supply of head lines for newspapers, and the department is not administered with that laudable end in view; but for this opinion and its practical application, no one is responsible, or should be blamed but my unworthy self."

Regarding the results of the municipal election in Baltimore, Aitorney General Bonaparte said today: "While I regret the results of the election, I cannot say that they surprised me. So far as I have had time to examine the returns, which I have been able, as yet, to consider only supificially, they seem to establish three facts, namely. 1. Mr. Mahool obtained the "regular" democratic vote. 2. Mayor Timanus failed to obtain a large proportion of the "regular" republican vote. 3. The vote generally classed as "independent" was somewhat divided, but the bulk of it went to Timanus. "This is very much what I thought would probably be the showing of the returns. I am sorry it was not different, but I am not given to orying over spilt milk."

"A democrat will be elected the next President of the United States" predicted Senator Newlands as he left the White House. "I regard as the leading democrats of the country," President Roosevelt, Taft, Bryan and Folk. One of them will be elected sure. I think it will be Bryan." Senator Newlands came to tak with the President about the work of the Inland Waterways Commission of which he is a member.

Representative J. Hampton Moore, of Philadelphia, today announced that he will offer in the next congress, a measure making train wrecking and rape capital offenses. "These are two offenses which, in my judgement should be punishable by death," he declared.

The heavy weights, Secretary Taft, and John L. Sullivan, former champion of the world in the fighting line, called to see the President today. "Iv'e got you skinned a block," said John L. to the War Secretary, at the same time giving the candidate for President a delicate punch in the region of his watch charm, to indicate that he referred to avoirdupois comparison. "I'm what you call a light weight now," he added, pointing to his own paunch. The two men compared weight. John L. weighs 335. The Secretary seemed proud that he weighed only 283, and the best he ever did was to trip the beam at 330. John L. without further sparring, pitched into the secretary for clemency for a friend that is doing time on Governors Island. They clinched, and were separated by the sound of Maj Loeffler's voice to the effect that the President of the United States waited within to welcome the prize fighter. The President chatted for half an hour with his caller. The bout was behind closed doors.

The President and Sullivan talked of the time when the champion first fought Charles Mitchell, the English champion, in New York in 1883. "The President was there that night," said Sullivan after his call, "and today he knows just about as much about the fight as I do. He saw me knock Mitchell through the ropes. Oh, yes, I have seen the President at a number of my fights. We are old friends."

William Coleman, colored, 24 years old, while walking over the Navy Yard bridge this morning, had a fit, fell overboard and was drowned.

Judge Stafford this morning fixed October 7 as the date for the trial of Mrs. Anna Bradley, charged with the murder of former Senator Brown.

The Congress of American Physicians and Surgeons convened in Washington yesterday for a three-day session, the initial meeting being devoted to the discussion of the historical development and relative value of laboratory and clinical methods in diagnosis. Loudoun vs. Fauquier.

The political situation in the counties of Loudoun and Fauquier is complicating the canvass of candidates in the Eighth congressional district. These two counties form one State senatorial district, and also from a legislative district, giving the two counties an additional representative in the Virginia House of Delegates called a "floater." For a good many years, by agreement, Loudoun has named the Senator and Fauquier the floater. Two years ago there was a demand from Fauquier for the senatorship, but the democratic executive committees of the two counties agreed, it is alleged, that if Loudoun were permitted to name the Senator once more, she would then concede Fauquier's right to name the next Senator, Loudoun to have the floater.

Fanquier claims the right this year to nominate the Senator, and Senator Lynn, of Loudoun, asks for re-election. T. C. Pilcher and George Latham Fletcher, a well-known attorney of Warrenton, have announced their candidacy, and are putting up a strong fight, while the friends of Senator Lynn insist that he is entitled to re-election.

Until recently, Judge Nicol, R. L. Gordon, C. C. Carlin and John F. Ryan each claimed a good following in Fauquier in the fight for the Congressional nomination. But since Loudoun, which is Mr. Ryan's home county, does not seem disposed to accede to Fauquier's demand to name the senator, both the friends of Mr. Fletcher and Mr. Pilcher say that Fauquier will retaliate, voting against Mr. Ryan.

In the event that Mr. Ryan loses many votes in Fauquier on account of the fight over the senatorship, Judge Nicol's friends assert that he will be the gainer, as more of the disaffected votes will go to him than to any of the other candidates.

DEMOCRATS WIN IN BALTIMORE.

The democrats won a complete victory in the municipal election in Baltimore yesterday. J. Barry Mahool, the democratic candidate for mayor, and his running mates were elected by a majority of about 5,000 over E. Clay Timanus, the republican candidate. The total vote cast for mayor was 93,345 out of a registered vote of 114,000. Of these Mahool polled 48,284 and Timanus 43,596, making Mahool's majority 4,638. The democrats also get seventeen out of twenty-four members of the first branch of the City Council and three out of the four members of the second branch who were elected this year.

Numsen, democratic candidate for president of the first branch of the City Council, and Hooper, democratic candidate for comptroller, will have majorities averaging 5,000, but Numsen ran somewhat ahead of Mahool and Hooper fell a little behind. The two loans of a million dollars each were carried by large majorities.

The weather was gloomy and the vote not as heavy as it would otherwise have been. Returns indicate that the breach in the republican ranks was by no means healed. Friends of former Congressman Wachter, who was defeated by Timanus in the primaries, cut the ticket despite the efforts of Wachter to hold them in line. In the strong Wachter wards there was a large falling off in the republican vote.

The republicans were in trouble early in the day when the negroes held back and refused to vote unless they were paid. The democrats, taking advantage of this, promised each one two dollars to remain away.

In some of the wards the negroes were dealt with in bunches. Heretofore the republicans have met the democratic offer and bought the darkies who agreed to vote their party ticket at a reduced price. This time, however, republican leaders decided to let the negro vote go as it pleased. They say that this class has always been most expensive and might as well be given a lesson.

In addition to this loss was that sustained from the refusal of Wachter people to support the ticket. While the great majority was loyal, about twenty per cent. cut the head of the ticket.

On the other hand, a number of independent democrats voted for Timanus.

THE IRISH BILL.

The government yesterday presented its long-awaited Irish bill to the House of Commons and the country. This bill is designed to meet the demands for Irish home rule. It was presented by the chief secretary for Ireland, Mr. Birrell, to a crowded house.

Compared with the home rule bills of 1886 and 1906, the measure of yesterday confers little self-government upon Ireland, merely giving to the council control of the eight departments now managed by government boards. The council is to be appointed by the crown, and while the lord lieutenant of Ireland is given power to nullify its measures, the crown retains control of five of the eight departments, including the constabulary. The control of this branch always has been a thorn in the flesh of the Irish people. The following are the features of the bill:

An administrative council of 82 elected and 22 nominated members.

The elected members to be elected on a local government board franchise.

Supremacy of the Imperial Parliament will be safeguarded by the power vested in the lord lieutenant to reserve his consent to any resolution of the council.

An education department under control of the council.

A special Irish fund of about $20,000,000 yearly to be created.

For financial purposes there will be eight departments.

The Supreme Court judicature, the Royal Irish Constabulary, the land commission and the prison board remain under control of the imperial authorities.

The Irish council will control local government board, Agricultural Department and industrial schools.

The radicals are disappointed that the measure falls so far short of actual home rule, and the Irish members are even more disappointed with it. The Irish leaders, however, are maintaining a diplomatic attitude until they have time to study the provisions of the bill and learn the sentiment of the people.

A nationalist convention will be held in Dublin soon to decide upon the policy of the Irish party. The laborites will support the measure, because they are all home rulers.

After the bill had been presented and explained by Mr. Birrell it was criticised and ridiculed by A. J. Balfour on behalf of the opposition. John E. Redmond then delivered a brilliant speech, noteworthy principally for its dignified and forceful exposition of Ireland's claims for complete home rule.

To prevent the first reading of the bill being deferred until tomorrow, and while Walter Hume Long was still speaking, Mr. Birrell moved the closure. Then amid a great uproar and protests, and shouts of "Gag," the closure was carried by 417 votes to 121, and the bill passed its first reading by 416 votes to 121. The House then adjourned.

Mysterious Shooting

The police of South Franklin, Mass., have been unable to locate Johan Danelio, who is alleged to have shot his bride of a night, Frances Danelio, at their newly prepared home Sunday night. The young bride was still alive at midnight, but little hope was express of her recovery. The couple were married Sunday, and entertained friends in their new home until nearly midnight. The groom's father, who occupied a room up stairs, was the only other occupant of the house after the guests left. Early Monday morning he was aroused by hearing revolver shots down stairs, and hurrying down to the couple's room found the young woman lying on the bed with three bullet wounds and three stab wounds in her body. The husband had disappeared. It was sometime before the police were notified, and although the police of surrounding cities and towns were notified to be on the watch for the missing husband, they were unable to locate him. No cause is known for the deed.

Today's Telegraphic News

Strike in New York.

New York, May 8.—With the 11,000 striking longshoremen still holding out and no prospects of a settlement in sight, the situation along the water front became more serious today. Even the largest companies are now seriously hampered, and freight is accumulating at a rate which promises to cause delays and inconvenience for weeks after the strike is finally settled. What little work about the docks is being done can only be carried on under police guard. One clash between strike breakers was reported in Williamsburg this morning. Strike breakers employed by the Havemeyer Sugar Refining Works were attacked. It was necessary for the police to use their clubs freely before the riot was ended. Nassara Ciebanni, one of the strike breakers, was hit on the head and his skull reported to have been fractured.

Little progress is being made in moving the mountains of freight by the strike breakers so far employed. For the most part they are negroes and ignorant foreigners who have accomplished little. Already thousands of dollars of loss are said to have been caused through the spoiling of perisable goods left exposed on the docks.

Practically every line has been delayed by the strike. The big Kaiser Wilhelm II could not dock last night because there was no room at her pier. The Cevic is another liner held up in the bay until the Georgic, of the same line can clear.

By settling with their employes the Mallory, Southern Pacific and Quebec lines have been able to resume work, but steamers are still being delayed owing to the accumulations of freight.

A report today said James Farley, professional strike breaker, has been employed to break the strike and will soon have 5,000 men at work on the various docks.

Another serious riot occurred at Coenties Slip. A barge loaded with 300 Italian strike breakers who were being taken to the Bush Terminal Warehouse Company in Brooklyn, was discovered near the slip by strikers. Instantly there was a rush to the adjoining pier and stones, bricks and every kind of missiles were hurled on the Italians. The Italians, helpless, could not dodge the missles until the barge put on steam and drew out of range.

Police Commissioner Bingham said today the strike is becoming so serious it may be necessary to call off the policemens' annual parade set for Saturday. If there is any danger of rioting, he declared, he would call off the parade and keep the men on duty.

Bloody Battle on Steamship.

San Diego, Cal,, May 8.—On the request of Allen Hutchinson, British Vice-Consul, orders have been received from Washington to assign as many soldiers from Fort Rosecrans as may be necessary to quell a mutiny aboard the British steamer Maori King, now in quarantine. Eight persons were killed and fully one hundred wounded during a fight which occurred between Chinese and Russian passengers, it is said, during the voyage from Vladivostok.

According to Captain Duncan, a race war broke out shortly after the vessel sailed. Even during a terrible storm the fighting was kept up. Chinese members of the crew became involved and the officers had their hands full in navigating the ship. Two Russians and six Chinese perished during the fighting. It has been impossible to learn just how many of the Chinese were wounded, as they refused to allow the surgeon to treat them, but over 200 are known to have been hurt.

Captain Duncan said the steamer carried 921 Chinese, 417 Russians, and 56 Chiness among the crew. A contractor, Lee Sun Sai, lured the Chinese on from the vicinity of Harbin, promising to land them in San Francisco. Two days out he told them they were going to Guayamas, Mexico. Then pandemonium broke loose.

Two sailors who escaped from the ship say the mutiny was started and prolonged by the officers shooting down 25 Chinese and throwing their bodies overboard. This the officers deny. They declare many of the Chinese died of disease, owing to the filth in which they lived, and had to be thrown overboard.

Vice-Consul Hutchinson has started a vigorous inquiry. He has asked that a guard of American soldiers be sent with the steamer to Guayamas, as the Chinese cannot be landed this side of Mexico.

Hobson Has a Rival.

London, May 8.—Richmond Pearson Hobson, of kissing fame, has a new rival in London's Lord Mayor, Sir Wm. Treloar. Reports from Cornwall, where he is making a sort of triumphal tour, state that he has been the recipient of a perfect storm of kisses. The Lord Mayor visited his native town of Salston to attend the annual festival there and has gradually extended his tour in view of the honors and favors which have been conferred on him. An old woman starting the kissing epidemic. On the first day she besought the mayor for just one kiss. He consented only to be met with the demands for kisses from other women—many not so old. Once the habit was contracted it was easy to maintain it on the balance of the tour. When he entered into office the Lord Mayor won renown by scathingly criticizing the frivolity of his predecessor, who on an official visit to France had bestowed kisses broadcast and his own downfall has caused much amusement.

A Significant Prayer.

"May the Lord help you make Bucklen's Arnica Salve known to all," writes J. G. Jenkins, of Chapel Hill, N. C. It quickly took the pain out of a felon for me and cured it in a wonderfully short time." Best on earth for sores, burns and wounds. 25c at E. S. Leadbeater & Son's, drug store.

The Strike in Philadelphia.

Philadelphia, May 8.—The serious question of declaring an "open shop" by the master builders of Philadelphia which came before the advisory board last Monday and was postponed for settlement until Thursday will probably come before the members of the exchange today, and it is likely a spirited contest will ensue.

Sore Nipples.

Any mother who has had experience with this distressing ailment will be pleased to know that a cure may be effected by applying Chamberlain's Salve as soon as the child is done nursing. Wipe it off with a soft cloth before allowing the babe to nurse. Many trained nurses use this salve with best results. For sale by. W. F. Creighton and Gibson and Timberman.

Conditions in San Francisco.

San Francisco, May 8.—With Governor Gillette holding the Seventh regiment under arms ready to turn out at a moment's notice, if needed, to prevent a recurrence of yesterday's violence in the street car strike, and federal troops ready to assume control of the situation if they are called for, San Francisco today awoke to a full realization of what the strike means. One death and twenty-eight persons wounded in the rioting has impressed on the authorities the necessity for drastic measures to put down the rioters.

The threats of Police Chief Dinan to arm his men with repeating rifles and instruct them to shoot into mobs if any violence is employed toward street railroad employes, had the effect of keeping the strikers and their sympathizers quiet early in the day. But that further bloodshed is likely to occur at any moment is generally admitted.

President Calhoun of the United Railroads declared he is determined never to yield to the strikers, and their leaders are just as vigorous in declaring never to return to work until their demands are granted.

Chief Dinan assured President Calhoun today he will do everything in his power to afford full protection to the employes of the company in the attempt the company is prepared to make to run its cars on certain lines. Orders were given out for the reserves to present themselves at the station houses with repeating guns. If necessary, Chief Dinan said, he will patrol every street on which cars are run. Mayor Schmitz has issued a proclamation urging citizens to avoid all danger centers. People will be kept moving on all the streets where there are car lines. While the men were cowered temporarily by the preparations to punish rioting vigorously it was feared their awe would wear off before night.

The Haywood Trial.

Boise, Idaho, May 8.—Judge Wood today took action in the Haywood case upon the motion of the defense for a bill of particulars showing evidence on which the attempt would be made to fix the responsibility for the murder of ex-Governor Steuenenbeg on Moyer, Haywood and Pettibone. Afterwards the judge conferred at length with the sheriff regarding the procedure in the court room. It was decided that only spectators who can be comfortably seated will be premitted to be present at the trial. Haywood will be brought from jail to the court room up an inside stairway and will not meet anybody on the way. He will not occupy the prisoner's dock, but will be seated with his attorneys.

While the air is filled with rumors as to possible surprises, both sides are playing close. Not an inkling of the prosecution's intention has been permitted to leak out.

Harry Orchard, the self-confessed murderer of Steuenberg, is still isolated in a hospital ward in the Boise penitentiary. No one is permitted to see him. He will be held there until wanted in court. He is declared to be in excellent health and spirits.

Boise, Ia, May 8.—Judge Fremont Wood today denied the motion of counsel for W. D. Haywood, accused of complicity in the murder of former Governor Stuenenburg, for a bill of particulars. Counsel for the dense entered exceptions. The trial will proceed on Thursday when the task of selecting a jury to be taken up.

Long Trip.

New York, May 8.—Around the world to sign his name is the trip on which Frank A. Brangan, treasurer of the Philippine Islands, is embarked. All possible has been exercised to get upon the market the railroad bonds of the Philippine Railway Company. Owing to the fact that the Philippine commission guarantees a certain interest on the par value of the bonds, it was necessary for the proper official of the insular government to sign them. It would take two or three months to send the bonds from Washington to Branagan, in Manila, for his signature and back again, so the request was made of the commission by the railway to send Branagan to the bonds. Coming via San Francisco, Branagan will complete the circuit of the globe by retnrning via the Suez canal.

The Irish Bill.

London, May 8—There are indications today that all but the rabid radicals will support the Irish council bill introduced by Irish Secretary Birrell yesterday. Now that the provisions of the bill are known not to contain anything objectionable to any party, although it comes far from satisfying any one, home rulers say the measure is timid, while the unionists are suspicious that it gives predominance to Catholicism, but these are minor objections. T. W. Russell, a unionists, but a leader of the Ulster land movement, said today: "It is a very moderate bill and in no way gives home rule." This seems to voice the sentiment of unionists general.

Arrest of H. Clay Pierce.

St. Louis, May 8.—H. Clay Pierce, president of the Waters-Pierce Oil Co., was arrested at noon Wednesday in the oil company offices on the tenth floor of the Bank of Commerce Building on a warrant from Texas. It is said that perjury and other charges are contained in the warrant which was served by Assistant Chief of Detectives John MaCart.

After spending a few uncomfortable minutes in the charge of the police, Mr. Pierce was taken before Judge Elmber B. Adams of the United States Court on habeas corpus proceedings.

Japan and the United States.

Berlin, May 8.—The Japanese government has instigated negotiations with the United States for the purpose of arranging a settlement of any differences which may exist between the two nations in Asia or the Pacific regions, according to official information received here. It is stated Japan desires by a formal agreement to effect a settlement of all disputed points. The American entente is sought to supplement the new Anglo-Japanese treaty and the recent agreement between France and Japan, details of which have just been made public.

New York Stock Market.

New York, May 8.—London was surprisingly strong this morning and arbitrage brokers had much to do with causing an improvement here by the purchase of 10,000 shares of Union Pacific for London account, putting that stock up one point to 146¾ before the end of the first hour. Price movements were all to higher levels in early trading, the extreme being made in Delaware and Hudson, which moved up 3 points. Later there was an increased pressure from several sources, and on a quick reaction the leading and most active stocks lost all their early gains. There was more talk about Union Pacific financing. Government bonds unchanged.

Two Women Killed.

New York, May 8.—With her throat cut from ear to ear and her body terribly mutilated, Mrs. Mary Veto, a young Italian woman, was found early today by a police who broke into her home upon the report that a double murder had been committed there. In an adjoining room was found the body of Mrs. Maria Brignoli, Mrs. Veto's mother, with the throat similarly slashed. With the fiendishness of a "Jack the Ripper" the murderer, after killing Mrs. Veto, had slashed her body.

He only cease the work of mutilation when the blade of his knife broke against her breast bone.

John Baptisto Veto, husband of the younger woman, is under arrest charged with the double crime. He has offered the only other theory for the crime, saying he encountered two men in his home who had killed the women. He exhibited a cut on the hand which he says he received while grappling with them. The police, however, believe Veto killed the women, either after a quarrel over money matters, or because they had discovered secrets of a Black Hand Society to which he is supposed to belong.

Steamer Wrecked.

Plead Guilty.

Boston, May 8.—The Bowler case, in which figured a spendthrift young Harvard man from Cincinnati and two beautiful women, one his wife and another former sweetheart, came to an abrupt end today when the defendant, George P. Bowler, appeared in court and pleaded guilty to forgery on eight counts. Bowler was arrested several weeks ago for swindling "Peco" Bennett, the Harvard "old cle" man out of $9,000. His case was given immediate notoriety by the arrival here of Mrs. George Reynolds, a wealthy New York woman, who announced that although he had a wife and she a husband, she loved the handsome young prisoner, and made unsuccessful efforts to raise $15,000 bail for him. Mrs. Bowler joined the New York woman to gain her husband's release. It developed today that Bowler has a fortune of $:00,000 held in trust from which he receives $4,000 a year. The police say he spent $100,000 during his brief career at Harvard.

The National Magazine for May, which has been received from ist publishers in Boston, is the Jamestown Exposition number, and the descriptions of "Jamestown Island," "Old Jamestown," "Naval features of the Exposition," "A Night in Old Williamsburg," "Old Point Comfort," etc, are most timely and of much interest. "Affairs at Washington" is a comprehensive and well illustrated article. The first instalment of a serial entitled "A Romance of Arlington House" appears in this number. Other good features and eight bright short stories makes this issue one of the most attractive ever published by this magazine.

The Southern Planter for May has been received from its Richmond publishers and is a very interesting number. Among its table of contents are well-written articles on work for the month, raw phosphate rock, handling farm manure, selling and feeding grain, milking machines, nut growing in Virginia, beef production, etc.

Deafness Cannot Be Cured

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed Deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

The Midgets Case.

The bill embracing nine exceptions in the case of George Midgets, colored, convicted of the murder of Charles T. Smith, and sentenced to be hanged in this city on the 24th inst., has been agreed upon by counsel for both sides and has been signed by Judge Barley of the Corporation Court and a record copy of the same made by the Clerk of the Court. On the 15th Messrs. Brumback and Smith, counsel for Midgets, will take the paper to Richmond and ask one of the judges of the Court of Appeals for a writ of error.

It was stated yesterday that among the rulings during the trial to which exceptions had been taken was the overruling of a motion for a change of venire. It should have read change of venue.

Today Messrs. Brumback and Smith received a letter from Midgets, who is in jail in Fredericksburg, asking them to come there at once. He says that Sergt. Chichester, of Fredericksburg, has received a message from a man who claims that he was on the circus grounds in this city at the time Smith was killed and saw Robinson shoot Smith.

Young Man Injured.

A young man who gave his name as Manning Glick and who said his home is in New York, was found lying in the Potomac railroad yards, north of this city, between 4 and 5 o'clock this morning. While he could give no account of the cause of his plight, it was found that he had been painfully injured either by having been struck by a train or falling from a car. He was picked up, put in a box car and brought to the Fayette street depot at which place he was placed in the ambulance and carried to the Alexandria Hospital where he was attended by Dr. Smith. His injuries, though painful, are not thought to be serious. Glick said he left his house about a week ago for the purpose of visiting the Jamestown Exposition and after staying there a day or two he boarded a freight train for the purpose of returning to New York. He could not tell how he was hurt, and it is supposed that he fell from a car while asleep.

Colored Man Drowned.

A colored man named Thomas Washington was drowned at H. K. Field & Co's. wharf (formerly J. R. Zimmerman's) at 9:45 o'clock this morning. Washington, with several other colored men, was engaged in unloading the lumber-laden schooner Nettie, when he was suddenly taken with a fit and throwing up his hands, fell backward from the schooner into the dock. Every effort was made by his companions to rescue him, but without avail. Captain Finnell of the schooner notified the station house of the drowning, and Chief Goods and Officer Jones proceeded to the dock. The body was recovered about half an hour after the drowning and taken to Demaine and Son's undertaking establishment. Washington was about 38 years old.

Probable Tie-up.

Unless the engineers of steamboats and tugboats running on the Potomac agree to a compromise in the demands they have made through the Marine Engineers' Beneficial Association for a 25 per cent. increase in the wage scale, it is probable that there will be a tie-up and that there will be an effort upon the part of owners of boats to replace the men with engineers from other ports. The engineers' association has given the owners of the boats a week to consider the demands of the local branch. It is said that one of the local sand dredging companies operating a fleet of several small boats has made an effort to compromise. The steamboat managers refuse to discuss their plans.

Southern Train Ditched.

Speeding at thirty miles per hour, north-bound passenger train No. 38, on the Southern Railway, was derailed near Lexington, N. C., fifteen miles north of Spencer, at midnight Monday night, and the train crew as well as passengers had a narrow escape from serious injury. Engineer A. R. Rowsee was slightly hurt by being struck by the debris. L. E. Vaughan, the colored fireman, was seriously injured under the tender. None of the passengers was injured. The engine, tender, a baggage and one mail car were ditched and the track was blocked for twelve hours, being cleared at noon yesterday. The wreck is said to have been caused by a split switch.

Kindergarten.

The monthly meeting of the Alexandria Free Kindergarten was held yesterday afternoon. Arrangements are being made for the annual meeting at Lee Camp Hall, which the public is always most cordially invited to attend. Among other speakers it is hoped to have Mrs. May Minnegerode Andrews, who wrote some interesting letters last year to the Gazette on her impressions of German kindergartens. The following subscriptions of $1 each have been received: Mrs. J. M. Hill, Miss Laura King, Mrs. R. F. Knox, Mrs. G. W. Jamieson, Mrs. Stuart Jamieson, Mr. Lewis Bell, Mr. Ahern and a friend.

Judge Barley.

Judge L. C. Barley, of the Corporation Court of Alexandria, and who is now also acting as circuit judge for this circuit, has been designated by Governor Swanson to hold the next term of the Circuit Court of Rockingham county, beginning on Monday next. Judge Barley will open the May term of the Corporation Court here, which is a chancery term, early on Monday morning and will then adjourn this court till Friday. Later he will take the train for Harrisonburg to sit for Judge T. N. Haas, of the Circuit Court for Rockingham.

Runaway.

The horses attached to a wagon belonging to the Potomac Brick Company ran away on King street this morning. They ran east to Pitt street and down that thoroughfare to Duke where they again turned east and proceeded as far as Royal street where the wagon collided with a tree which brought the horses to a halt. The wagon was considerably damaged.

Whites and Blacks Fight.

Considerable excitement was caused in the vicinity of Wilkes and Pitt streets yesterday evening by a fight which took place in the neighborhood between white and colored boys, supposed to be pupils of the public schools. During the fight bricks were thrown and colored women, it is said, participated in the disorder. No arrests were made.

Good Words for Chamberlain's Cough Remedy.

People everywhere take pleasure in testifying to the good qualities of Chamberlain's Cough Remedy. Mrs. Edward Phillips, of Barclay, Md., writes: "I wish to tell you that I can recommend Chamberlain's Cough Remedy. My little girl, Catherine, who is two years old, has been taking this remedy whenever she has a cold since she was two months old. About a month ago I contracted a dreadful cold myself, but I took Chamberlain's Cough Remedy and was soon as well as ever." This remedy is for sale by W. F. Creighton and Gibson & Timberman.

Tri-state Averages in North American.

You are interested in the Tri-state League. Next to knowing the scores of the games, you want a chance to find out how the men are hitting and fielding, the analysis that explains the victories and defeats. The Philadelphia North American carries the complete batting and fielding averages on its tri-state page every Sunday. These averages are prepared especially for The North American, and it is the only paper which has this feature. You can keep track of your favorities, and settle many an argument by having these figures close at hand, from week to week. Their accuracy was established last year by the closeness with which the final compilation paralleled the official figures issued by President Carpenter, one month after The North American printed its final figures for the season.

The German Tariff.

The German Reichstag yesterday passed the first reading of the commercial modus vivendi between the United States and Germany and referred the agreement to a committee.

Vice Chancellor Count von Posadowsky-Wehner expressed apprehension that the agreement at many points did not fulfill the hopes entertained by the members. Its essential features were almost exclusively administrative provisions made by the United States, which, if carried out in the spirit of the arrangement made between the United States and Germany, would permit of the hope that many of the difficulties complained of by the German exporters would be moderated or removed.

The federated governments regarded the modus vivendi as being only the first step toward reaching an understanding with the United States upon a much broader basis. American duties, when compared with the German, were extraordinarily high and in many classes of goods wholly exclude imports. Therefore, Germany hoped that further negotiations would lead to a more just recognition of her claims. The United States should remember that Germany was among its best customers.

Karl Herold, clerical, expressed the support of his party for the agreement upon the presupposition that a formal commercial treaty would be laid before the house upon its termination.

Count Hans von Schwerin-Loewitz, conservative, said the modus vivendi by no means corresponded with the principle of reciprocity as interpreted in the United States. What advantages the arrangement gave to German industry were indefinitely less than those Germany gave to the United States.

The agreement was eventually referred to a committee of 28 which, it it expected, will report in a few days.

The Jamestown Exposition

The meeting of the directors of the Jamestown Exposition, called for yesterday afternoon in Norfolk for the purpose of authorizing a bond issue of $400,000 to raise funds to complete the Exposition in detail, was postponed until this afternoon because of the absence from the city of President Tucker and C. Brooks Johnson, chairman of the board of governors. Messrs. Tucker, Johnson and Ellyson have been in the north for the purpose of finding a desirable purchaser for the bonds. They will make a report on their visit to the directors at the meeting this evening. It is regarded as a strong probability that Thomas F. Ryan will be awarded the entire issue. This statement was yesterday issued at the Treasury Department in Washington:

"Secretary Cortelyou and Assistant Secretary Edwards, of the Treasury Department, held a conference yesterday with officials of the Jamestown Exposition Company. Mr. Tucker, the president; Mr. Johnston, the chairman, and Mr. Ellyson, of the Board of Governors of the exposition, were present. Details of the proposed loan of $400,000 by the company were submitted and approved. This sum will enable the company to pay off all outstanding obligations and leave a balance sufficient for proper operating expenses.

"The government officials connected with the exposition are anxious to aid in making the celebration a success, and will co-operate with the company in every way to bring about that result.

"Reports from the grounds are encouraging, and it is thought that within a short time the exposition will be in full operation."

Suicide of an Actress.

Mrs. Wallace Widdecombe, whose stage name was Muriel Nelson, committed suicide in her apartments at the Hotel Bennington, New York, early yesterday morning by shooting herself in her head. "Miss Nelson" had appeared in fairly important roles in both this country and England, one of her last engagements having been with the William Faversham Company in the "Squaw Man," but she was known better in New York as a composer than an actress. She wrote several marches which found favor, among others, "The Moorish Parade" and "Target Practice." Mrs. Widdecombe had been living apart from her husband, who is also on the stage. She brought suit for divorce six weeks ago.

Loudoun Primaries.

The democratic committee of Loudoun county, D. Their former action designating June 13 was set aside and June 19 substituted. This action of the committee will lessen the expenses of the primaries, and the nomination for county and district offices will be made at the same time that a candidate for Congress from the Eighth Virginia district is chosen.

"Lyndhurst" Mortgaged.

"Lyndhurst," the pretentious home of Mrs. William Thaw, in the east-end section of Pittsburg, Pa., has been mortgaged for $100,000. The mortgage was recorded some time ago. The book containing the record has been hidden, and information concerning the document did not become public until yesterday. The interest charged is 5 1-2 per cent, and the mortgage is held by the Fidelity Title and Trust Company. It will mature in three years.

Harry Kendal Thaw is shown to have been the recipient of the second largest income of any of the heirs, nearly $60,000 having been paid to him. This sum was exclusive of the income which he derives from various other bequests under his father's will. The account of Harry Thaw shows there is due him, under the direct legacy allowed by his father, the sum of $439,534.46. The income from this as invested by the trustees during the three years covered by the account, is $93,903.20. Of this sum, expenditures have been made covering the necessary expenses of the estate, bringing the amount actually paid him down to something less than $60,000.

For stomach troubles, biliousness and constipation try Chamberlain's Stomach and Liver Tablets. Many remarkable cures have been effected by them. Price, 25 cents. Samples free. For sale by W. F. Creighton and Gibson & Timberman.

He Fought at Gettysburg.

Davis Parker, of Fayette, N. Y., who lost a foot at Gettysburg, writes: "Electric Bitters have done me more good than any medicine I ever took. For several years I had stomach trouble, and paid out much money for medicine to little purpose, until I began taking Electric Bitters. I would not take $500 for what they have done for me." Grand tonic for the aged and for female weaknesses. Great alterative and body builder; sure cure for lame back and weak kidneys. Guaranteed by E. S. Leadbeater & Sons, druggists, 50c.

Serious Charges Against a Minister.

Following charges filed with the board that he had been intimate with several young girls of his congregation Rev. T. F. Everhart, aged thirty-five, pastor of the Methodist Church of Enfield, Illinois, hastily departed on the first train. He has a wife and girl baby. Citizens of Enfield say that the haste of Rev. Mr. Everhart in departing was particulary timely, as feeling against him was intense, and he might have been lynched had he remained in Enfield another day. A meeting of the church board was called Monday, but the findings of the body were not made public; and, since the minister has departed and because of the prominence of the girls of tender ages involved in the case, it is not probable that details will be given out.

Let me mail you free, to prove merit, samples of my Dr. Shoop's Restorative, and my Book on either Dyspepsia, The Heart, or The Kidneys. Address me, Dr. Shoop, Racine, Wis. Trouble of the Stomach, Heart or Kidneys, are merely symptoms of a deeper ailment. Don't make the common error of treating symptons only. Symptom treatment is treating the result of your ailment, and not the cause. Weak Stomach nerves—the inside nerves—means Stomach weakness, always. And the Heart, and Kidneys, as well, have their controlling or inside nerves. Weaken these nerves, and you inevitably have weak vital organs. Here is where Dr. Shoop's Restorative has made its fame. No other remedy even claims to treat the "inside nerves." Also for bloating, biliousness, bad breath or complexion, use Dr. Shoop's Restorative. Write for my free Book now. Dr. Shoop's Restorative sold by E. S. Leadbeater & Sons.

FOR OVER SIXTY YEARS.

AN OLD AND WELL-TRIED REMEDY.—Mrs. Winslow's Soothing Syrup has been used for over sixty years by millions of mothers for their children while teething with perfect success. It soothes the child, softens the gums, allays all pain, cures wind colic and is the best remedy for Diarrhœa. Is pleasant to the taste. Sold by druggists in every part of the world. Twenty-five cents a bottle. Its value is incalculable. Be sure and ask for Mrs. Winslow's Soothing Syrup and take no other kind.

Guaranteed under the food and drugs act, June 30th, 1906. Serial number 1098.
